2. District Highlights

2015-16 PARCC RESULTS SUMMARY

CCSD: Proficiency

The results of the District show promising gains, but there remains a lot of work to do.

District Only, Grades 3-8

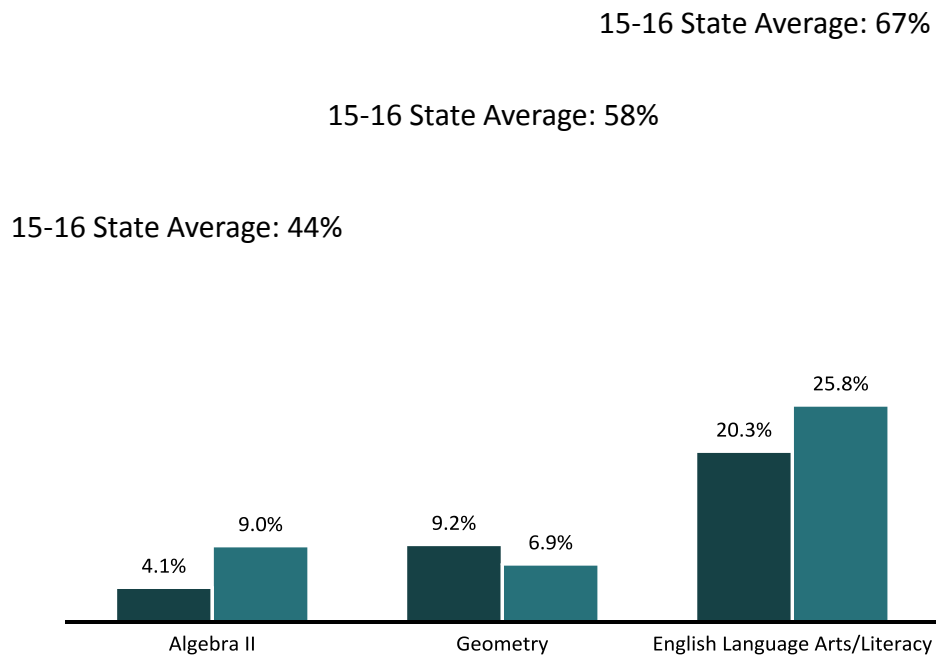

Overall, the District had **over 120 more** proficient students in math and **nearly 250 more** in English language arts.

2015-16 PARCC RESULTS SUMMARY

CCSD: College and Career Readiness

PARCC is currently one way high school students can meet their graduation requirement. Some students are meeting the bar, and with support more students will get there.

HS Students Scoring at 3 or Above

2015-16 PARCC RESULTS SUMMARY

CCSD: Next Steps

District teachers and administrators are focused on building on this progress and improving performance.

Here are a few major focal points of this instructional work for 2015-16:

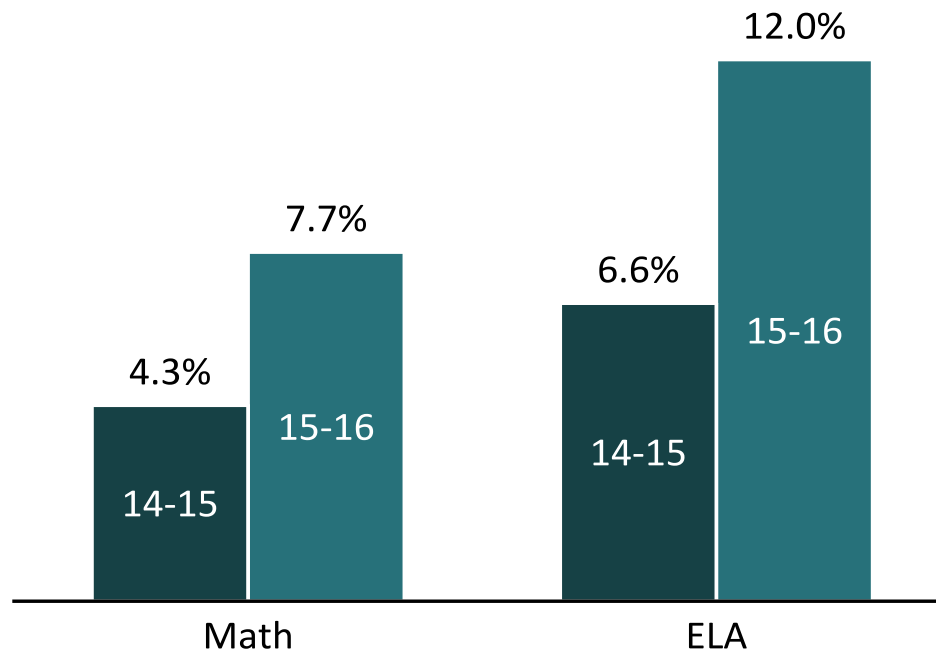

1. Adding operational support
2. Providing earlier literacy interventions
3. Training teachers and principals

2015-16 PARCC RESULTS SUMMARY

CCSD and Renaissance Partners: Combined Proficiency Results

When taken together, the results of the District and its renaissance partners show promising gains, but there remains a lot of work to do.

District and Renaissance Together, Grades 3-8

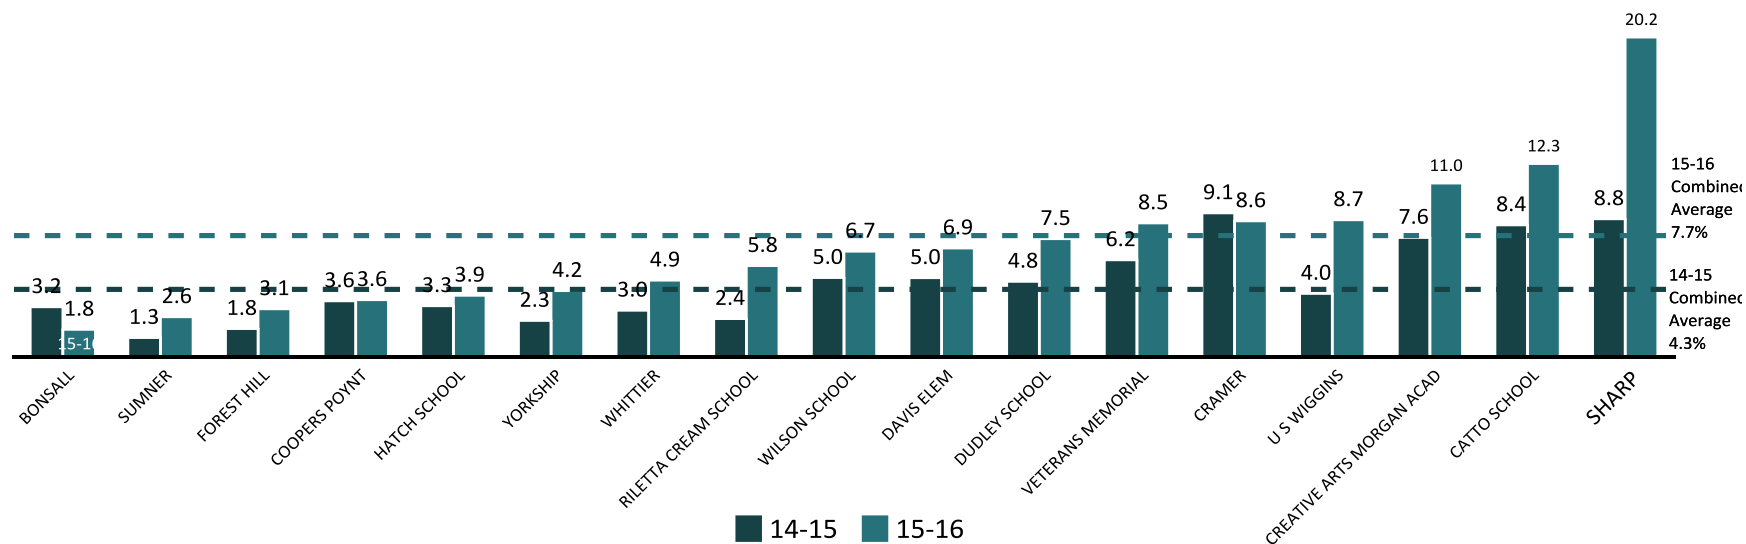

2015-16 PARCC RESULTS SUMMARY

CCSD: Proficiency: K-8 school-level change

There was widespread improvement in math, and collectively we have a long way still to go.

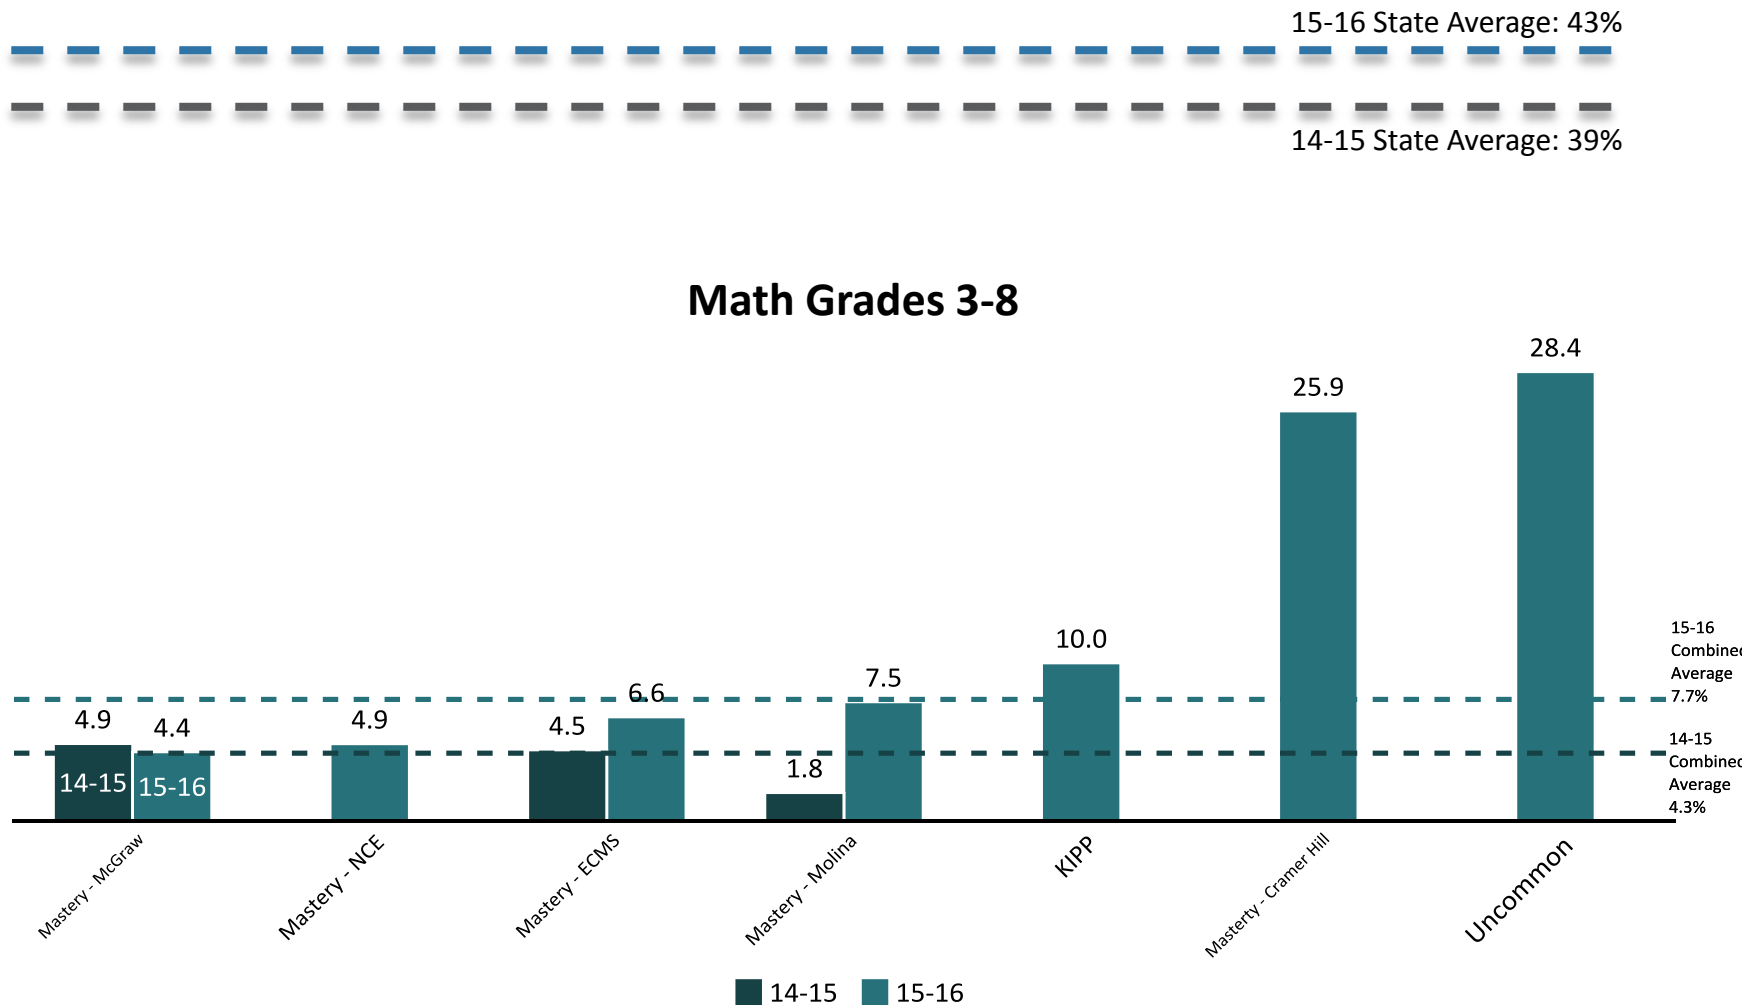

Math Grades 3-8

2015-16 PARCC RESULTS SUMMARY

Renaissance: Proficiency: K-8 school-level change

There was widespread improvement in math, and collectively we have a long way still to go.

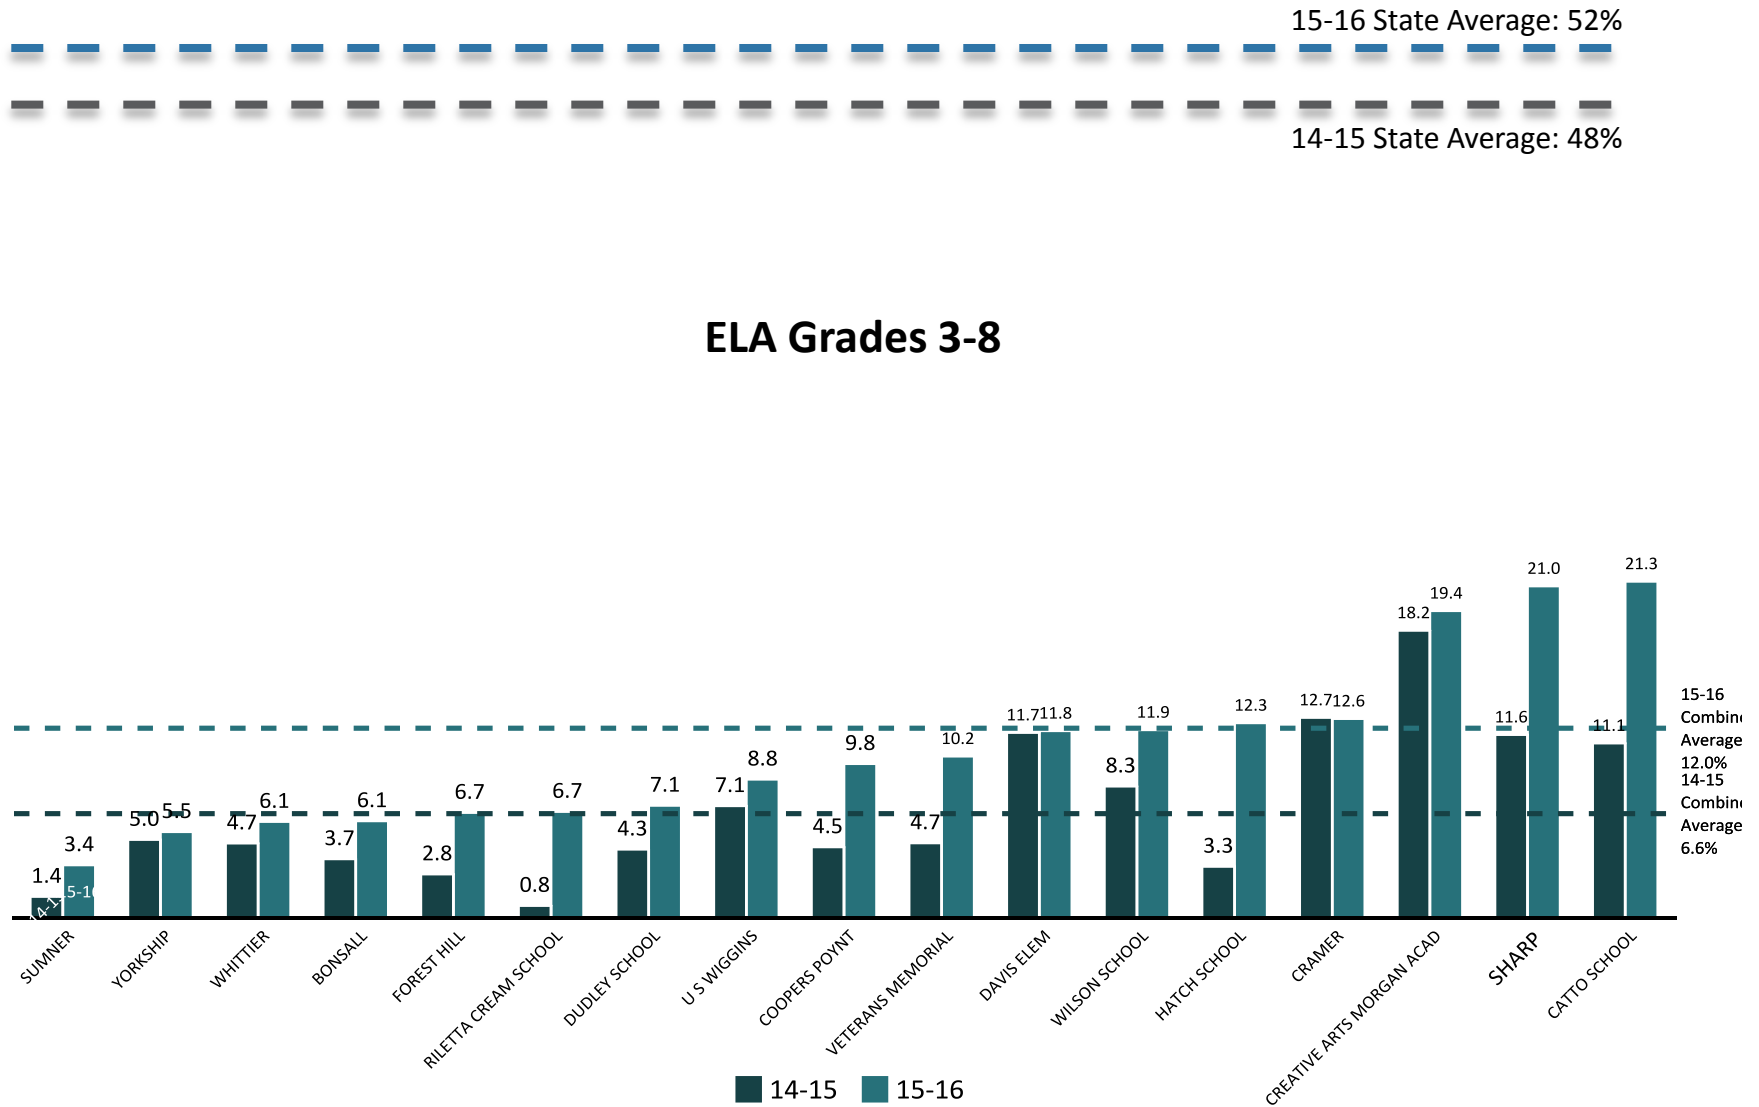

*Several schools did not have results from 14-15

2015-16 PARCC RESULTS SUMMARY

CCSD: Proficiency: K-8 school-level change

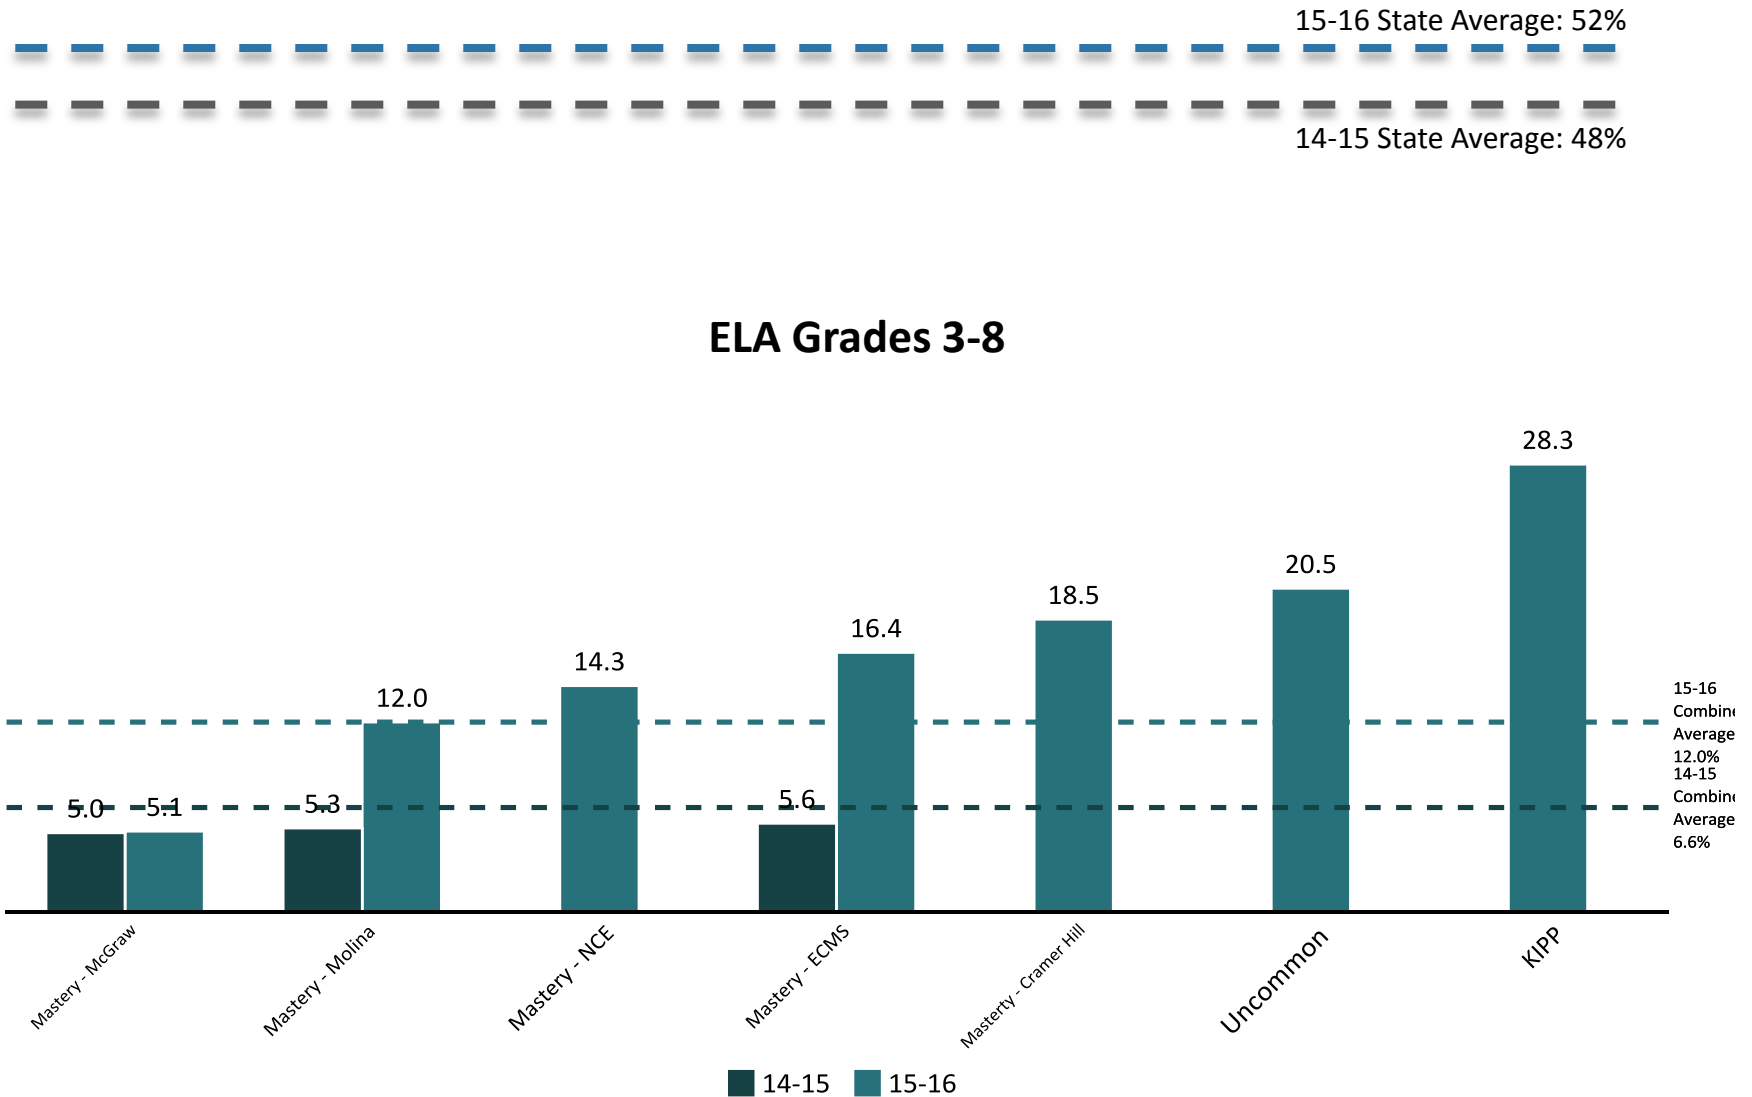

There was widespread improvement in ELA, too, and we also have a long way still to go here.

2015-16 PARCC RESULTS SUMMARY

Renaissance: Proficiency: K-8 school-level change

There was widespread improvement in ELA, too, and we also have a long way still to go here.

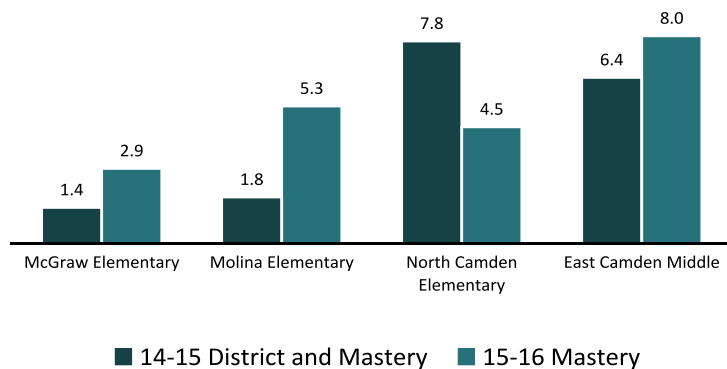

*Several schools did not have results from 14-15

2015-16 PARCC RESULTS SUMMARY

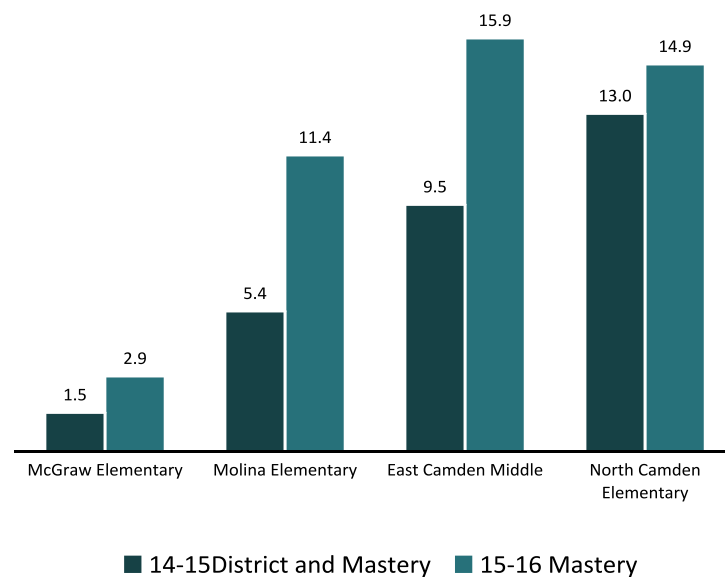

Mastery: Proficiency

Looking at the same students, year over year can provide a better measure of progress.

MATH – Same students

ELA – Same students

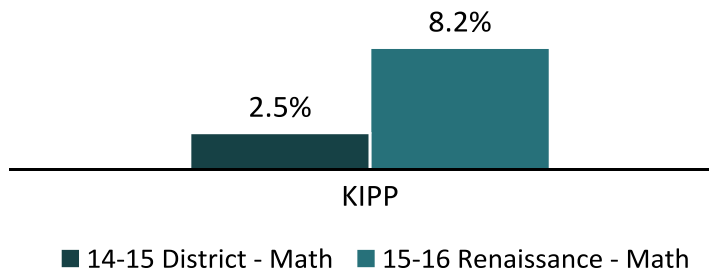

2015-16 PARCC RESULTS SUMMARY

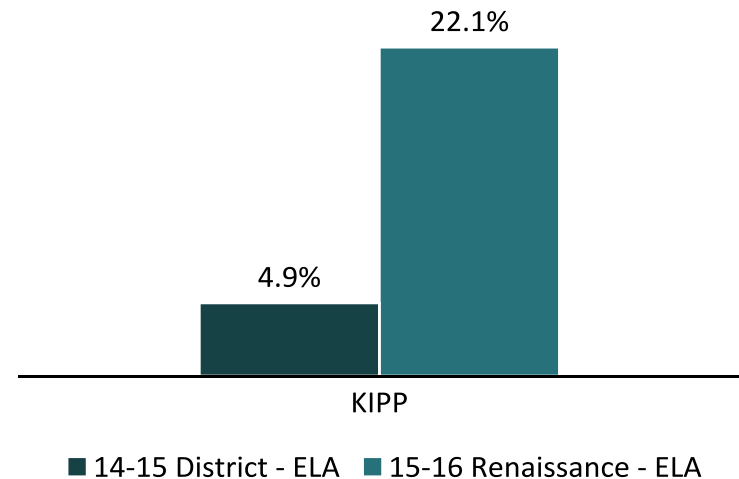

KIPP: Proficiency

Looking at the same students, year over year can provide a better measure of progress.

MATH – Same students

ELA – Same students

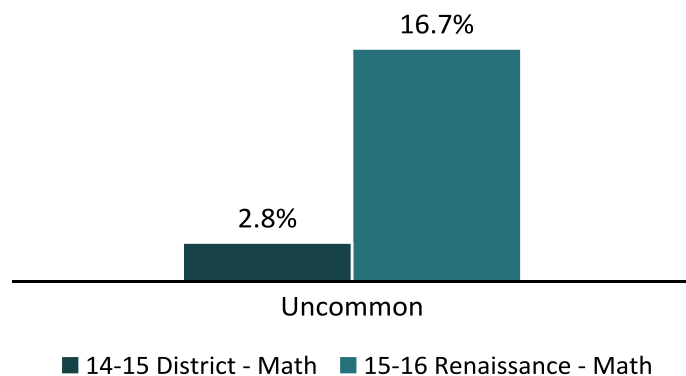

* 122 KIPP students took each exam.

2015-16 PARCC RESULTS SUMMARY

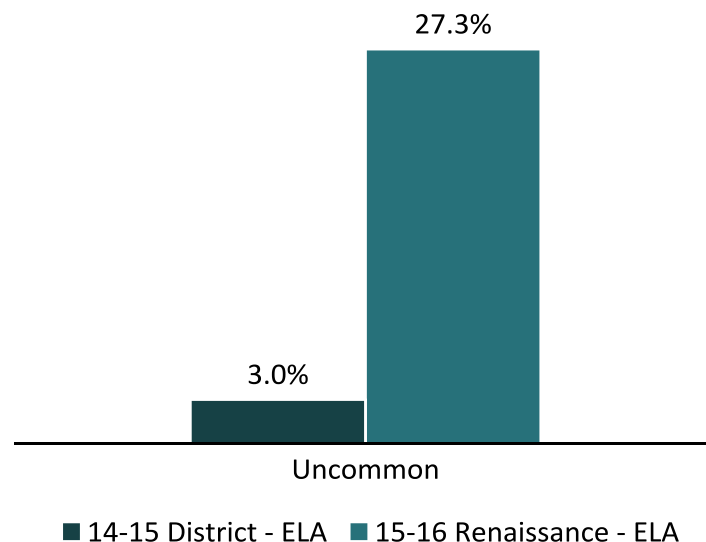

Camden Prep: Proficiency

Looking at the same students, year over year can provide a better measure of progress.

MATH – Same students

ELA – Same students
