The Camden City School District will provide learning environments where all students are valued, accepted, and prepared to positively impact their lives, the community and the world.

September Focus: Strategic Plan and Goals

These Belief Statements serve as the **apex** of the Camden City School District. They are our **guiding principles**.

We believe all students need differentiated experiences in environments that promote social emotional learning and engage them to be successful learners.

We believe we are a part of the child's village that partners with families and community organizations to provide access to resources.

We believe all staff are valuable and must meet standards of excellence in service to our students and families.

We believe the composition of our staff should reflect the diversity of our student population and that all staff must have cultural awareness and understanding of one another and the students, families, and community we serve.

We believe we must be fiscally responsible, working towards fiscal sustainability, in order to ensure equitable and appropriate resources reach the schools to educate all students in a safe and secure environment.

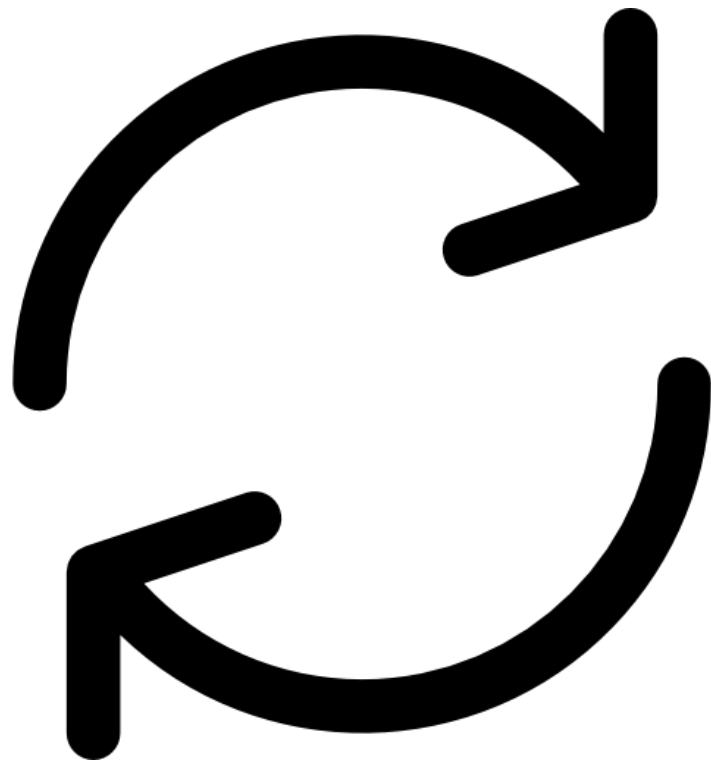

★ *Increase proficiency in ELA and Math*

★ *Increase the graduation rate*

★ *Improve and increase staff retention*

★ *Improve family satisfaction*

★ *Increase fiscal sustainability and resources to schools*

District Updates: Teaching & Learning

ZINC
READING LABS

Target

Use data from assessments to target instruction and keep students in their Zones of Proximal Development.

Teach

Provide explicit close reading and vocabulary instruction

Train

Practice new reading skills and encounter new words in authentic texts

Test

Take standards- and skills-aligned assessments to diagnose needs and monitor progress.
